

SINGLE PARENTS RESEARCH STUDY

We are researching challenges single parents encounter when accessing:

- Early childhood education services
- Early intervention services
- Preschool special education services
- Other supportive programs for their children with disabilities

AND how these challenges affect the parent's mental health.

What to expect

- Brief 45-60 minute virtual focus group
- All responses will be de-identified

Benefits

- Help inform administrators, educators and policy makers about the specific needs of single parents
- Eligible participants will receive a \$20 Amazon gift card
